

Bike Rack Equipped Bus Routes • Effective August 2nd, 2011

RACK IT and ROCKET!

The Rack It and Rocket! program puts bike racks on buses so that cyclists can take their bikes with them. By 2012 all bus routes (except Community routes) will offer bike rack service. Currently, all regular and Night bus routes (except 52 Lawrence West and 352 Lawrence West) provide bike rack service.

Visit www.ttc.ca for additional details, including instructions on how to use the racks and an instructional video.

Bike rack service is also available on many bus routes operated by other GTA transit agencies, including GO Transit, York Region Transit, Mississauga Transit, Brampton Transit, and Durham Region Transit.
